

Swimming Assistant is a simple to use system that stores huge amounts of useful information, evidences compliance, records all results and positions and allows simple access to information.

- Significantly reduce your time and workload
- Quick access to all essential information
- Consistency in managing your club affairs

“We bought Swimming Assistant for accurate admissions and takings and for hiring water time. It is easy to move groups of swimmers, keep track of progress through the ASA National Plan for Teaching Swimming and teachers qualifications. I can evidence the collection of Health & Safety and medical information and distribute it on a need to know basis. Swimming Assistant has helped us gain the Swim 21 accreditation and Sport England Club mark.”

*Mrs Chris Talbot,
Oakengate & District ASC.*
